Arborfield School Information Bulletin

Principal's Message

Hello Arborfield School Community,

We were able to avoid the cold weather for most of January which is always a blessing so that students can have outdoor recess. While this week is looking chilly, we are back to better temperatures soon!

As we look back on first semester, please take time to reflect on your child's growth so far. Read your child's report card, discuss with your child about their learning and have it become part of your regular routine. For our elementary students, our outcomes are end of year goals so it is important to focus on growth rather than their current grade. We are only at the halfway point so there are still five more months of growth to happen this year. While many of our high school students' classes are ending, and a final grade is submitted, talk to your child about what they may or may not do differently to have the academic growth they want. And always remember that if you at any point have questions about your child's learning, please do not hesitate to reach out to their teacher.

One of the most important events in a student's life is graduating from high school. We have two young ladies who worked tirelessly to ensure they graduated early from Arborfield School. I want to congratulate Madison and Emilie on all their years of school and wish them all the best in their future endeavours. The students, staff and community thank you for all that you have done for our school. We will see you both at graduation in June.

Wishing each and every one of you a happy and healthy second semester. It will be shorts weather soon enough!

Yours in Education,

Patrick Smoke

Principal
