Spirit Week has had a really good turnout for the students and staff. For Halloween they are looking at movie options for 7-12, trying to plan some virtual events to project on screen to include k-12.

Principals Report- 75 students

Tether balls purchased, students going outside more and home for lunch, schedule for elementary classes to use playground in a rotation to limit contact. 9's-are involved in teaching with Star City, 10's are involved in teaching with Arborfield & Star City by Amanda and Vanessa. These groupings will allow students to not have to write a departmental exam. Block system is going really good from both student and teacher points. Computers being taken out of the building, technology became NESD decisions and they decide how much of what kind is needed within the schools. They would like 2-3 students per device, we had been allocated more devices (128 devices for 78 students). They have narrowed it down and the computer lab computers are no longer available/feasible. Technology is on a 5 year replacement plan within the schools. 18 I pads were all new in Arb 2019 . 15 Chrome books, 18 laptops were replaced in 2018 and there are a few desktops in the library for student/teacher use.

School sustainability met with Don Remple (in March), reevaluate in 2022 as far as sustainability goes. Working with Star City there are very positive outcomes being met for students. 90 students being the minimum for school review. High school is small numbers, elementary and preschool numbers are higher.

Parents aren't to be sending food for Halloween, treat bags are going to be supplied for each student and paid for by the SCC. This ensures that safe food handling has been met etc. Lina makes the motion to purchase supplies, Stacey seconds it.
